Safety  
ICAO

# Workshop Goals

- Workshop is intended to develop competencies for
  - planning and implementation of NASP
  - in alignment with ICAO GASP and EUR-RASP
- This includes
  - identifying national ops safety risks and organizational challenges
  - and planning safety enhancement initiatives to address them
- and State's strategic direction for management of aviation safety
  - including national safety goals, targets and indicators
  - based on *ICAO 2023-2025 Edition of the GASP* (Doc 10004)
